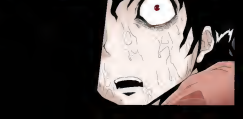
TRACE 2.0

EP.2 Kidnappers

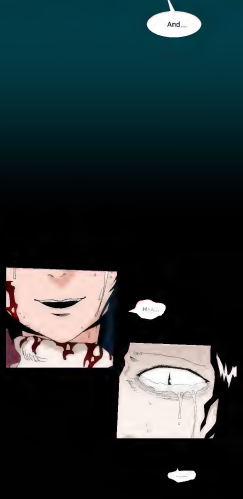
NASTY CAT

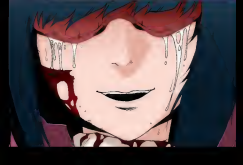
ShiHyun Han.
So you're saying that you can tame Trouble with the liquid that comes from your body?
Mhm.
If I feed them DnD and really set myself to the work, they're totally trainable.

What an interesting power.
I wonder if it's a naturally formed substance or a substance transformed through environmental means.
I don't know very well, but.. DnD might have been made to be addictive for Trouble.



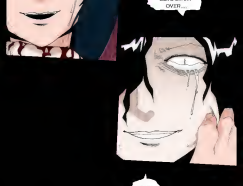
A Trouble saved me.



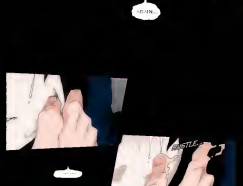


Ha... Ya, ha...

Let's go home quickly... And... Eat...



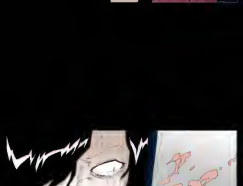
Let's start over...



Grunk...

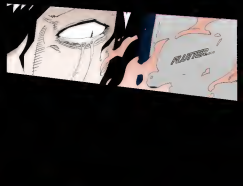
Rustle...

Rustle...



Flutter..!

Flutter...



Ah!

Flutter...

N... No...! What... What's going on!! Suh-rase!

What the hell's going on!!!

NO WAY... YOU CAN'T BE DYING FROM JUST THIS!?
IT YOU CAN'T DIE FROM SOMETHING LIKE THIS!!!
NO...!!
HA... AH...
DON'T GO, SARANG!!!
TOTOTOT

And...

I'm greatly indebted to Trouble.

Honestly speaking, in our world, Trouble aren't treated all that well.

Even if you say you're indebted, that Trouble wouldn't have thought of it like that.

Right now your attitude towards Trouble. That in itself probably made that Trouble happiest.

Is that...

Really true..?!

Yeah.

Then...

That means that the kids that were sacrificed to Dumpilun would have been happier with me.

I'll say it again, the sacrifices for Dumpilun are something else entirely.

I understand your heart well enough. So you too have to accept these sacrifices for the sake of the future.

Because of the sacrifices of your Trouble now, the remaining Trouble can be safe.

... ...

I spared you and am even trying to persuade you because I acknowledge your sincerity.

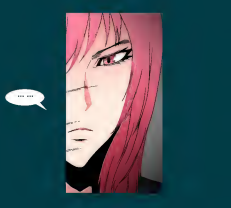
I promise you.

I'll definitely remember your current pain and sadness.

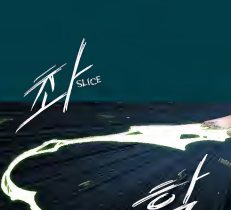
... ...

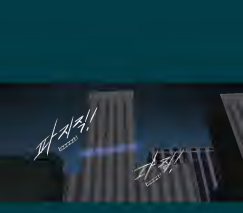
Fine..

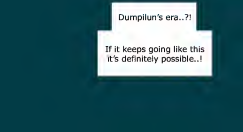
But that still doesn't change my anger and heartache.



That attack again?!







Dumpilun's era..?!

If it keeps going like this it's definitely possible..!

We can't just sit back and wait for YoonSung Kim!

The radiation levels are increasing!

The upper limit is being exceeded!!

Something's trying to come over!

Wait...! Look there!!

Something's coming out

SUDDENLY!

Yoo.. YoonSung Kim?!

Hello, I'm YungHoon Go.

I sincerely thank you all for watching over Trace.

In the future, I am planning on having the Trace serialization be divided into segments 20~30 chapters long and after each part there will be a 1~2 week break

I'm preemptively telling you so that there won't be a long break like before and so that I can take care of my health to continue to have a long serialization, so please understand.

Up to Chapter 21 will be Kidnappers part 1,
and Chapter 22 will return Sept 7th.

I will try to make the manhwa worth the wait.

Again I sincerely thank you for watching over Trace and hope that you always have a wonderful day!

Thank you
